Backend
Node.js, Express.js, Java, Spring Boot, REST api

Database/ORM
Postgres, Prisma

Other
Git, Docker, CI/CD

ABOUT ME

I am a software engineer with 3 years of experience with a focus on frontend. My expertise lies in JavaScript-based technologies like Vanilla JS, TypeScript, React.js, Next.js etc. I have worked on large scale project like Robi Distribution Mangement system which serves large userbase. I also developed projects like e-commerce, company portfolio, ML etc.

PROFESSIONAL EXPERIENCE

Reddot Digital IT, Software Engineer 🔗
January 2022 – present | Dhaka, Bangladesh

- Develop, Debug and maintain frontend codebase of Robi Distribution Management System (RDMS) Portal application written in React.js
- Developed a design system and introduced a consistent state management across application facilitating bug-free, smooth development experience
- Introduced optimization techniques and reduced bundle size by 30%
- Made full application responsive and enhanced user experience.
- Converted 40% of legacy code (class components) to newer syntax (functional components) to leverage newer features of react

EDUCATION

B.Sc. in CSE,
Chittagong University of Engineering & Technology
2016 – 2021 | Chattogram, Bangladesh

Higher Secondary, Notre Dame College, Dhaka
2013 – 2015 | Dhaka, Bangladesh

PROJECTS

Robi Distribution Management System 🔗
January 2022 – present

- Manages distribution process, calculate incentive of field-level retailers, configures & integrates different services (sales order, sales force automation app, etc.)
- Implements role-based access of the system
- Generate real-time reports
- Manages workflow and automates processes

Developer Portfolio 🔗
May 2023

- showcases my personal info and latest web application developmentworks
- build using Next.js, prisma, sanity
- Dynamic content upload using CMS
